Rusbelrodriguez50@gmail.com

*Junior developer with skills in Python, C#, JavaScript, Dart (Flutter), and SQL. Experience in real-world projects applying agile methodologies (Scrum) and tools like Jira, Bitbucket, and Git. Looking for an opportunity to contribute with proactivity and a problem-solving mindset to the growth of a development team.*

## WORK EXPERIENCE

---

### Cámara de Cuentas de la República Dominicana

Santo Domingo, DR

Junior Programmer – Web Master

June 2025 – Present

- Maintain and optimize institutional websites using Joomla and WordPress, ensuring accessible and up-to-date presentation.
- Improve interface structure meeting accessibility standards and NORTIC regulations.
- Manage digital content and provide basic technical support from the help desk.
- Collaborate interdepartmentally to ensure visual and functional consistency across platforms.

### Avacomp SRL

Santo Domingo, DR

Junior Programmer – Junior Analyst

January 2024 – June 2025

- Joined as an intern and was subsequently hired as junior developer, participating in all phases of the software development lifecycle: analysis, documentation, development, and implementation.
- Led the successful delivery of an asset accounting system from requirements gathering to deployment.
- Developed improvements and bug fixes for ERP and Roadmap projects using C#, Blazor, Telerik, JavaScript, and Docusaurus.
- Implemented Scrum methodology and collaborative workflows managed through Jira, Bitbucket, and Confluence.
